

February 1, 2017

The Union of Northern Workers joins the country in mourning following the shootings at the Centre culturel islamique de Québec in Quebec City on January 29.

We stand in solidarity with our Muslim friends, neighbours, and colleagues at this sad time.

The UNW is so proud of the immediate local community reaction to come together at the Islamic Centre in Yellowknife on January 31<sup>st</sup> to show love, strength, and protection.

No-one should be a victim of such an attack, nor should anyone have to live in fear. There is no place for that in Canada. Let us all counteract the hatred and violence with love and protection.

As a union and as Canadians, we embrace the common interests that unite us and we celebrate the differences that educate us and make us stronger.

Todd Parsons, President

On behalf of the UNW Executive
